3U Computer

The Aqeri 91030 is a front accessible 19" 3U computer for use in harsh environments. The chassis is fully sealed for protection against dust and corrosive elements. The full aluminium construction allows for low radiation and high noise immunity (in accordance with MIL-STD-461E). The internal heating and climate control system guarantees operations in extreme temperature environments. The Xeon dual core processor makes this a high performance computer which also features Raid 0/1/5 with one up to four Hot Swap flash drives.

Features:

- > Raid 0/1/5 Hot Swap
- > Xeon dual core processor
- > Fully sealed, compact chassis only 3U, 19"

TECHNICAL SPECIFICATIONS
